

# Pro-Watch® 4.0

SECURITY MANAGEMENT

Choose Open.  
Choose Pro-Watch.

**Honeywell**

Pro-Watch®

# Your Choice for Security.

For more than two decades, Honeywell's Pro-Watch® security management suite has been chosen by Fortune 100 and Fortune 1000 companies worldwide to protect people, property and assets by combining visitor management, access control, IP video surveillance and intrusion into one powerful system.

It's a simple choice. **Choose Pro-Watch** and make Honeywell your partner in security.

## Open Platform

Effortless integration with disparate and third-party systems – resulting in cost savings and increased operational efficiencies.

- Drives energy savings through a more efficient use of HVAC and building management systems, enabling real return on investment.
- Gives you the freedom to create custom-fit solutions using easy to use tools like the Pro-Watch Integration Kit—saving you time and money.
- Integrates seamlessly to visitor management, mass notification and other systems for tighter security.

## Supports Wireless Readers\*

Providing flexibility for installations that were traditionally difficult to run wires to in the past.

- Gives you the key benefits of a hard-wired system without the wires.
- Secure more entry ways that weren't an option before— increasing security throughout the facility.
- Save on cost for wiring and installation.

\*Pro-Watch 4.0 is compatible with Ingersoll Rand wireless readers models AD-400, AD-401.

## Making Security and Building Management Smart

Designed with an open platform that offers integration, scale and flexibility, Pro-Watch 4.0 is the next big thing in creating smart buildings. A new graphical user interface features remote web-based monitoring of events and alarms—just access what you need from the Internet. Wireless door readers give you all the benefits of hardwired without the costs. Complete with the tools needed to build customized apps that interface with smart devices.

To learn more about the new features and functionality of Pro-Watch 4.0 download the datasheet at [www.honeywellintegrated.com](http://www.honeywellintegrated.com).

### Web Based Alarm and Event Monitoring

Easily monitor alarm and events anywhere with an Internet connection.

- Gives you the ability to respond quickly to alarms and events.
- Reduces PC operating system issues, no dedicated PC costs.
- Ensures that information vital to business success is never overlooked.

### Advanced Management Tools

Offering the tools you need right out of the box – to save you time and money.

- Enhanced graphical user interface offers a fresh modern look with new icons and color gradient.
- Pro-Watch Compliance Report Manager helps you create, run and save custom reports.
- Advanced Badging makes training employees easier and offers tools to manage badges more effective.

We support open standards and architecture through our Honeywell Open Technology Alliance (HOTA). HOTA enables open exchange of technology between security and IT manufacturers—maximizing an

end-user's investment in existing security technology. Honeywell is also a contributing member of ONVIF and PSIA. [www.honeywell.com/security/hota](http://www.honeywell.com/security/hota)

## Award-Winning Security Management

Honeywell's Pro-Watch® security management suite was selected by top resellers in 2011 as a Best Channel Product by *Business Solutions Magazine*.

### Which Edition Best Fits Your Needs?

#### Pro-Watch Enterprise

Global control with local autonomy for large multinational applications with unlimited users and doors.

#### Pro-Watch Corporate
